

## BOP & Casing Test Tools / Mandrels

SUB-DRILL BOP & CASING TEST TOOLS / MANDRELS PROVIDE A SAFE AND EFFICIENT WAY OF TESTING BOP'S & CASING RAMS.

Integral Design manufactured to Sub-drill's Standard Manufacturing Specification or Customer Specification.

Sub-drill BOP & Casing Test Tools / Mandrels can be manufactured with an Integral Pad-eye or with a tool joint setup to suit your requirements. Optional Communication ports available to ensure the test pressure is exposed to the sealing element.

Available in a range of working pressures up to 15,000psi.

Sub-drill has carried out design verification including stress / finite analysis of our test tools to ensure we offer some of the best test tools on the market.
