GLOBAL
MANUFACTURING

Global is the premier manufacturer of Drill Stem Valves, developed and engineered using FEA to be the highest quality and most reliable valve on the market. Precision machined from the highest quality materials, Global Valves are reliable - designed to last the pace offshore, and are competitively priced.

Global specialise in the design and manufacture of Drill Stem Valves for all types of well and operating conditions, including 20, 000 psi designs for the next generation of drilling.

- > API Spec 7 Approved
- > Manufactured to NS-1(tm) Specifications where applicable
- > API - Q1 Monitored
- > API - QC System
- > Design Analysis c/w FEA
- > DNV & ABS Certification Available

Sub-drill are the authorized distributor and OEM approved repair centre for Global Manufacturing products in Europe and Africa.

Drill stem valves are critical rig items and form part of the routine BOP equipment test cycle. Additionally, to minimise rig downtime it is recommended that Top Drive Valves should be serviced by the approved Repair Facility. We provide a comprehensive Strip-Down, Inspection, Repair and Pressure Test Services, with quick turnaround.

- > Full service inspection and costs prior to commencing work
- > Pressure tests up to 22,500 psi
- > 3rd party NDT test inspection
- > Replacement Valve Supply
- > Maintenance Program Available
